Bottles are reusable yet disposably priced, with thin walls for flexibility. They are available in transparent autoclavable polypropylene or less transparent non-autoclavable polyethylene .

Bottle openings are designed to accept standard size paper lids, foam plugs, cotton balls, and Buzz Plugs™.

Vials are available in either standard cost saving polystyrene or flexible virtually unbreakable K-resin. Flat bottom straight wall design for convenient racking, stacking and filling of vials.

Vials are available in tray or bulk pack. The tray pack 10 x 10 row configuration is great for quick, effortless filling. The bulk pack vials are layered with open-end orientation for convenient handling and smaller case size.

Buzz Plugs™ is a registered trademark of Fisher Scientific.
